

LANCIA CAR REGISTER – PRE-AURELIA – Extract from 1947 ACI List

Work in Progress – 1st Draft

Compiled by Paul Mayo

Last Edited: 29 July 2015

The intention of this register is first of all to make sense of all the information I have collected. Initially the idea was to collect “sightings” of as many UK resident Lancias as possible, whether or not they are extant or remain in the UK. However I am now also including information on ‘non-UK’ cars as it comes to hand.

The list aims to record the chassis, engine & registration numbers, any other details of the car such as coach-builder, the last known owner with dates, addresses & references & earlier owners where known.

Entered edited Boneschi List from Nada book, which I'd prepared some time ago. The ownership column contains the “Date Entered” and “Customer” from the list of cars in the Boneschi book.

Started to enter list of Lancias from fold3.com website to which I was alerted by Geoff Goldberg.

The lists appear to be of vehicles lost by Italian citizens to the German forces during WW2 & particularly after July 1943.

It seems the lists were put together by the Italian authorities for submission to the US Allied Commission for Austria (USACA), Reparations & Restitution Branch 1945-1950.

They appear in the category "Holocaust-Era Assets – Italian Claims – File 127s (Record Group (RG) 260".

Other files in the 127 series have correspondence on restitution claims for individual vehicles.

The Italian lists are interesting as they give the owner & address, chassis, engine & registration number. The pages are headed "Autoveicoli di Proprieta di Cittadini Italiani Asportati dale FF.AA. Tedesche Operanti in Italia". This translates as "Motor Vehicles, Property of Italian Citizens Removed by the German FF.AA. Operating in Italy".

NOTE that the surname comes first, followed by first names. Many abbreviations are used – for example V. must mean Via for street; F.lli must mean Fratelli for brothers in a company name.

In my transcription an illegible letter is marked ? or a guess in followed by a ?

The pages are stamped by the "Automobile Club D'Italia, Roma" & by "Ufficio Del Pvblico Registro ?? Mobilistico Roma". The latter stamp has a date: 7 Nov 47, 13 Nov 47 17 Nov 47 or 19 Nov 47 & others indecipherable but still Nov.

The lists are signed by "Il Segretario Generale (GT Canestrini)" if the Automobile Club di Italia.

The papers are also marked "Italian claim #127", presumably entered later by the US administration.

The pages are all stamped "DECLASSIFIED.....Date 1978"

For reference in the Register below I shall abbreviate the source as "**ACI-1947**"
